

International Conference
on Elliptic and
Parabolic Problems
May 20–24, 2019 Gaeta – Italy

Zurich, May 2019

We herewith certify that

Abdelmouhcene Sengouga

took part at the „International Conference on Elliptic and Parabolic Problems”, from May 20-24, 2019 in Gaeta and gave a short talk:

The wave equation in an interval with moving endpoints: Exact solution and boundary observability.

For the organising committee

Michel Chipot

Prof M. Chipot
