## ***Dedication***

To all the Arab leaders and figures who  
supported the Algerian Revolution,  
to everyone who offered a helping hand,  
I dedicate this book.

# ***Introduction***

## Introduction

This section includes active figures in supporting the Algerian Revolution from Tunisia and Libya, and politicians and elites from Egypt, Syria, Iraq, Jordan, Sudan, Saudi Arabia, Kuwait, and Qatar, most of whom are heads of state and government, kings, princes and activists who have recorded honorable and supportive positions for the Algerian Revolution.

We divided the book into two main chapters, the first is dedicated to friends of the revolution from Tunisia and Libya, and the second includes friends of the revolution from The eastern Arab countries.

We adopted a simplified approach, based on defining the solidarity figure from its active features, highlighting its role in supporting the Algerian Revolution, and relying on sources, texts, testimonies, archives, and photos to confirm the credibility of positions and the objectivity of events and visions.

We hope that we have succeeded in introducing a group of Arab supporters of the Algerian Revolution after we have written about its foreign supporters a lot. We hope that this contribution will be a building block in creating an encyclopedia or dictionary about the Arab supporters of the Algerian Revolution, because the book in its two parts cannot include everyone, with the list remains open, and success can only be achieved by combining efforts.

On the occasion of the publication of this book, we present it to the spirit of all the Arab friends of the Algerian Revolution, in honor of them, in recognition of their efforts and sacrifices for the Algerian revolution and their honorable stand with Algeria.

Dr. Meguellati ABDALLAH

## INDEX
