Beyond the Bot: Engaging Students in Analytical Thinking!

Chair: Dr Ashraf Jalal Eid, Qatar University, Qatar.

Synopsis: For over two decades, ERPsim Lab at HEC Montréal has been pioneering innovative, gamified learning experiences that empower students to develop strong abilities through simulation-based teaching. By combining the excitement of gaming with the rigor of academic learning, ERPsim Lab continues to transform the way students engage with business applications. This experience leads to increased student motivation, enhanced engagement through active participation and discussion, and a more positive attitude towards complex topics.

As generative AI continues to reshape education, it's crucial to prepare students with the critical thinking skills necessary to navigate a complex world. Our presentation therefore focuses on solutions provided by ERPsim Lab that equip students with such skills.
